

Motion of No Confidence in the Secretary

Meopham and District Allotment Association

14th October 2025

Recently, there has been a substantial increase in the number of questions, conversations and complaints initiated by members of the Association concerning the Secretary's behaviour and activities.

The Secretary of a Committee like ours shall:

- be committed to the Association and its objectives, and must be able to set aside their personal feelings and goals to achieve harmony in the Committee
- be precise and accurate in recording discussions and decisions arising in Committee meetings
- carry out a range of other tasks specifically delegated by the Committee as a whole and no others
- be responsive to requests by fellow Committee members for items to be placed on Committee agendas
- be responsive to requests from plot holders for Special General Meetings to be arranged
- not undermine the activities of Committee members who are seeking to achieve high levels of efficiency and effectiveness in their roles

Unfortunately, having been appointed by the Chairman, without any oversight by the Committee, none of the above six requirements has been satisfied by the Secretary since joining the Committee.
